My Name Tracing Pages

Type your child's name once – it fills in on every page!

1. **Type the name here:**

2. **Every page updates with the name automatically.**

3. **Print as many copies as you like and start tracing!**

Good to know

- **Easiest on a computer: open it in the free Adobe Acrobat Reader and type the name.**
- **iPhone / iPad / Android: use the free Adobe Acrobat Reader app. Apple Files, Books and most browser previews may show plain letters instead of the tracing dots.**
- **Works best for names up to about 12 letters. Use a capital first letter: Emma**
- **New name? Type over it and print again. Great for siblings & classes.**
